Chapter 2: Strategy, competitive forces and positioning

Below are a number of multiple-choice questions relevant to this chapter. There are two to three variations on the same questions. Each question has four options; the correct answer is written in the final column. Some questions are very simple, while others are much more difficult; this should be considered when setting quizzes or exams.

Example of possible instruction to students:

For each of the following questions, read each question carefully and then choose the answer you believe is *most* correct:
